

Victoria Park

Tower Hamlets

An important contract working within the demise of a London Public Park.

The working environment had to be closely controlled and co-ordinated with a civil engineering contractor working on other parts of the estate.

The work consists of construction of a new eastern hub building providing a café, public toilet facilities and park management facilities.

Also, refurbishment to the existing Victoria and Albert shelter to provide a new play group / educational facility and public toilet facility.

Security was of high importance in the park and full time out of hours security had to be employed.

Client: The Mayor and Burgesses of the London Borough of Tower Hamlets

Architect: Randall Shaw Billingham Architects

Quantity Surveying: Michele Bruton

Contract value: £1.4M

Form of Contract: JCT SBC 2005 With Quantities + Rev 2 2009 + LBTH Amendments
