

Richard House

London, E16

The Construction of a children's Hospice and Respite Centre for The Richard House Trust. This project was completely funded from charitable donations and required close project team co-operation to assist value engineering and budgetary controls.

The building, clad in traditional materials, provides a high quality environment for the very sensitive function and operation.

Client: Richard House Trust

Architect: Ronald Wylde Architects

Contract value: £2.3M

Form of Contract: JCT IFC 84
